RESEARCH EXPERIENCE AND OTHER EMPLOYMENT

Summer 2022	Bank of Italy Research Assistant	Rome, Italy
2018 – 2020	Bocconi University Research Assistant to Prof. Paola Profeta	Milan, Italy
Summer 2017	Presidency of the Council of Ministers Intern	Rome, Italy

JOB MARKET PAPER

“Bella Ciao! The Political Legacy of Women in the Italian Resistance”

Why do some places bring more women into politics than others? During the Italian Resistance against Nazi-Fascist occupation (1943–45), and before women in Italy could vote or stand for office, tens of thousands of women joined clandestine networks and took on political and military roles. Drawing on a new micro-level dataset on Resistance members ($\approx 240\,000$), I trace the long-run political legacy of women’s wartime agency. Across municipalities, higher female participation in the Resistance later translated into more women running for national office and stronger support for women’s rights at the ballot box. Identification relies on rich prewar controls and

an instrumental variable strategy based on terrain ruggedness, which increased reliance on local women to sustain Resistance cells. The legacy reached far beyond the women who fought: mass women's associations and public commemoration carried it to the present day. The findings shed new light on how brief, salient shocks to female political agency can create local political capital and durably alter the trajectory of women's political inclusion.

WORKING PAPERS & IN PROGRESS

“Gender Differences in Political Budget Cycles”, with Paola Profeta.

“Local Labour Market Conditions and the Selection into Politics”, with Nicola Mastrorocco and Luigi Minale.

“Education and fertility in Italy after the university access reform in the 1960s”, with Paolo Piselli.
